

Retail Structural Design

Structure By Design is a small structural engineering business that aims to provide clients with fast and economic solutions. We are able to provide design and structural certification in the following states; Western Australia, South Australia, Victoria, New South Wales, Northern Territory and Queensland.

Our company has worked with all 3 parties being, retail designer, shopfitter and the brand for invoicing purposes.

SByD are familiar with Scentre Group, Westfield, Vinicity and Stockland specific design requirements and have provided designs and structural certification in a number of their Centres throughout Victoria, New South Wales, Queensland and South Australia.

Structure By Design have worked hard on forming strong relationships for some iconic specialty brands. SByD provide design and certification for new store and refurbishment of existing stores throughout Australia. Our clients provide us with preliminary drawings, SByD provide them with a proposal. Once we have received the signed acceptance, SByD looks after the structural requirement throughout the duration of the build. Some of our existing long term clients are: Forever New, Platypus Shoes Australia, Uniqlo, Bras N Things, Lenard's, Skechers, Wittner, Bevilles, Max Brenner, Peter Jackson and Blue Illusion.

We are constantly working alongside shopfitters throughout Australia and have developed strong relationships with Shop Fitters based in Victoria, New South Wales and Queensland. Shopfitters provide Structure By Design with a constant supply of work.

Structure By Design also has strong ties with retail design businesses throughout Australia. We are constantly working on trying to form new relationship with retail designers.

By engaging Structure By Design, we work to ensure the design intent is achieved. If Structure By Design is able to assist with any projects please do not hesitate to email or call to discuss.

News

S.ByD. have provided structural drawings for a number of stores at Werribee Plaza, Eastland, Chadstone, South Wharf, Highpoint, Bondi Junction, Pacific Fair and Grand Central.

Testimony -

I just wanted to recommend to you the structural engineer we use, Trevor Carpenter, of Structure by Design, in the event you are ever looking for an alternative structural engineer.

Trevor specializes in retail fit outs and always has workable cost effective solutions, he always returns drawings straight away, is easy to talk to and is always happy to work with the shopfitter and glaziers in finding the best solution for all parties.
